The Peace Bridge and the RIT College of Applied Science & Technology Building are the winners of the Illuminating Engineering Society - Rochester Section Excellence in Lighting Awards. There are two awards: The Harley Hill Excellence in Lighting Award and the Energetix Excellence in Green Lighting Award. The awards are being presented today, February 8, 2010 at the Electrical Week Luncheon.

Harley Hill Excellence in Lighting Award

Buffalo/Fort Erie Public Bridge Authority The Peace Bridge

Submitted by:
Stantec Consulting Services

Harley Hill was an important member of the Rochester area Professional Lighting Community. He was well known in the industry and very active in this organization. The Award has been named in tribute to him and signifies the best lighting project as submitted by local firms and as judged by members of the lighting community.
